CITY OF WIMBERLEY COMMUNITY NOTIFICATION SYSTEM

The City of Wimberley is pleased to announce the launch of the Wimberley Community Notification System. With this contract service, through Blackboard Connect, city leaders can send personalized voice messages to residents and businesses within minutes with specific information about time-sensitive or common-interest issues such as emergencies and local community matters. The service will be used to supplement our current communication plans and augment public safety/first responder services. Please accept our invitation to participate in this great service. We know that your personal information is important, and rest assured that the City will not share it with anyone. If you have not received a test phone call from us, or you would like to provide additional contact information, click the Blackboard Connect link below to sign up.
